Registrar

Declaration to uphold and foster the integrity, honour and dignity of the Engineering profession by:

- a) using knowledge and skill for the enhancement of human welfare; being honest and impartial and serving with fidelity the public and clients; perform services only in the areas of professional competence; avoid unfair competition, associate professionally only with reputable persons or organisations; provide opportunities for the professional development of those engineers responsible for; recognise that the lives, safety, health and welfare of the general public are dependent upon engineering judgements decisions and practices incorporated into structures, machines, products, processes and devices.
- b) not approving the seal, plans and/or specifications that are not of a design safe to public health and welfare, or not in conformity with accepted engineering standards; do whatever is possible to provide published standards, test codes and quality control procedures that will enable the public to understand the degree of safety or life expectancy associated with the use of the designs, products or systems and conduct reviews of the safety and reliability of such.
